- Habitats in Our World
- Holidays We Celebrate
- Leaders in Your Community
- What We Eat
- Famous Entertainers
- Famous Scientists & Inventors
- Famous Athletes
- Famous Explorers
- Reader's Corner
- Canadian Provinces & Territories

**Cinco de Mayo**  
Read about Cinco de Mayo. Then use the words on the musical notes to complete the sentences. Color the musical note for each word you use.

French soldiers wanted to take over Mexico. The French army was better prepared and three times larger than the Mexican army. It seemed certain that the French would win. But on May 5, 1862, at the Battle of Puebla, the Mexican army defeated the French. What a victory!

Today Cinco de Mayo is celebrated each year by Mexicans and Mexican Americans to remember this proud day. The holiday's name is Spanish for 5th of May. Cinco de Mayo is celebrated with parades, fiestas, fireworks, and much more!

**Great Getaways**  
Animals have different ways of protecting themselves from danger. They can't fly out like birds or swim like fish. Divide each animal defense described below. Draw which defense listed on the gas tank. The animal is using. Write your answers in the spaces provided.

1. The cheetah can stretch its body to fit through a hole.  
2. The kangaroo can jump over a fence.  
3. The porcupine can curl up into a ball.  
4. The mole can dig underground.  
5. The octopus can change color.  
6. The chameleon can change color to blend in with its surroundings.

## The Solar System

**What Is the Solar System?**

**Our Solar System**

Sun, Mercury, Venus, Earth, Mars, Asteroid belt, Jupiter, Saturn, Uranus, Neptune.

The solar system is made up of all the planets that revolve around the Sun. Moons, comets, asteroids, meteorites, dwarf planets, dust, and
